Monday 03 July 2017

08:30 - 09:30

Invited session 01: Keynote session

08:30 - 09:00

Human Reproduction keynote lecture

Speaker to be announced

09:00 - 09:30

Non-invasive prenatal testing (NIPT) - state of the art

Dennis Lo, Hong Kong

09:30 - 10:00

Coffee break (in the exhibit hall)

10:00 - 11:30

6 parallel selected oral communication sessions

11:45 - 12:45

Invited session 02: Ovarian rejuvenation: for real or just a dream?

11:45 - 12:15

Mitochondrial transfer- can it improve oocyte quality?

Jacques Cohen, U.S.A.

12:15 - 12:45

Improving ovarian response through ovarian tissue activation

Kazuhiro Kawamura, Japan

11:45 - 12:45

Invited session 03: Data reporting session (PGD Consortium)

11:45 - 12:15

Invited session 04: Fertility Society of Australia Exchange Lecture

11:45 - 12:15

New strategies for ovarian preservation during cancer treatment: Elimination of PUMA confers protection against chemotherapy-mediated oocyte loss

Quynh-nhu Nguyen, Australia

11:45 - 12:45

Invited session 05: Paramedical invited session 1: Sperm messaging - what's the story?

11:45 - 12:15

Genetic screening in cases of extreme poor spermatogenesis

Liliana Ramos, The Netherlands

12:15 - 12:45

Evaluating oocyte activation potential of sperm using calcium pattern analysis

Bjorn Heindryckx, Belgium

11:45 - 13:00

Industry sponsored symposium 1

13:00 - 14:00

Lunch break (in the exhibit hall)

14:00 - 15:00

Invited session 06: The science and ethics behind germline genome editing

14:00 - 14:30

Gene editing in the human germ line - risks and possibilities

Robin Lovell-Badge, United Kingdom

14:30 - 15:00

Should we edit the genomes of our future children?

Stephen Wilkinson, United Kingdom

14:00 - 15:00

Invited session 07: Recent developments in ovarian (hyper) stimulation and ovulation induction

14:00 - 14:30

Individualised ovarian stimulation for IVF: balancing cumulative outcome, safety, burden and costs

Anders Nyboe Andersen, Denmark

14:30 - 15:00

The evolution of treatment approaches in PCOS: management of ovulation and metabolism

Richard Anderson, United Kingdom

14:00 - 15:00

Invited session 08: Debate: Deep endometriosis: to operate or not in infertile women

14:00 - 14:30

Pro

Horace Roman, France

14:30 - 15:00

Con

François Golfier, France

14:00 - 15:00

Paramedical selected oral communication session

14:00 - 15:15

Industry sponsored symposium 2

15:15 - 16:30

6 parallel selected oral communication sessions

16:30 - 17:00

Coffee break (in the exhibit hall)

17:00 - 18:00

Invited session 09: Has transcriptome analysis of oocytes and embryos run its course? Single cell omics

17:00 - 17:30

Single-cell proteomics of human oocytes

Jeroen Krijgsveld, Germany

17:30 - 18:00

Deciphering developmental processes from single-cell transcriptomes

Paul Robson, U.S.A.

17:00 - 18:00

Invited session 10: Are microwave food containers, water bottles and soft drink cans making you infertile?

17:00 - 17:30

Plasticizers and male fertility

Richard Sharpe, United Kingdom

17:30 - 18:00

Plastics and miscarriage

Ruth Lathi, U.S.A.

17:00 - 18:00

Invited session 11: Changing the life course for PCOS

17:00 - 17:30

PCOS in adolescence-to diagnose or not and future fate

Kathy Hoeger, U.S.A.

17:30 - 18:00

Is there a need to increase PCOS awareness?

Helena Teede, Australia

17:00 - 18:00

Paramedical selected oral communication session

17:00 - 18:15

Industry sponsored symposium 3
